## Jira Apps

| Logo  | Name                  | Cloud Docs  | Server Docs  | Description   |
|---|-----------------------|---|--|---|
|    | Optimizer for Jira    |    |   | The Optimizer for Jira App helps you manage your Jira system and make sure there are no unused elements which could be affecting the performance or cost of your Jira instance. Available on Cloud, Server and Data Center. |
|   | Issue Charts for Jira |   |  | The Issue Charts for Jira App provides graphs in the parent issue view for specific fields from subtasks, for example a pie chart displaying subtask status distribution in the parent task. Available on Server.           |
|  | Pulse for Jira        |  |  | Understand how Jira is used across your organisation with a complete analytics solution for Jira Cloud.   |

## Confluence Apps

| Logo  | Name                      | Cloud Docs  | Server Docs   | Description   |
|---|---------------------------|---|---|---|
|  | Approvals for Confluence  |  |  | The Approvals for Confluence App for Confluence Cloud App provides a Macro that can be inserted into any page on the system, which allows you to select users that can approve sections or pages. Available on Cloud, Server and Data Center. |
|  | Compliance for Confluence |  |  | The Compliance for Confluence App provides the features necessary to identify the nature of the data included in pages, restrict the visibility of sensitive data. Available on Cloud, Server and Data Center.                                |
|  | Votes for Confluence      |  |   | The Votes for Confluence App brings polls to the cloud. Whether you're gathering opinions when planning your next project, or organising a work party, Poll Macro can help you out. Available on Cloud.                                       |

## Trello Power-Ups

| Logo  | Name                    | Cloud Docs  | Server Docs | Description  |
|---|-------------------------|---|-------------|--|
|  | Approvals for Trello    |  |             | Get approval on Cards directly in Trello - implement your business processes with ease.  |
|  | Hierarchy for Trello    |  |             | The Hierarchy for Trello Power-up provides an easy way to give your cards structure.<br><br>The Power-up allows you to assign each Card a parent and one or more children.                           |
|  | Matrix for Trello       |  |             | An easy to use two-dimensional matrix for visualising your Cards in Trello!<br><br>Great for use as a Risk Matrix tool, or other grid-based system usage through customizable x- and y- axis labels. |
|  | View Tracker for Trello |  |             | The View Tracker for Trello Powerup provides an easy way to track how popular your Trello Boards and Cards are!  |

## Cross-Product Apps

| Logo  | Name                  | Cloud Docs | Server Docs   | Description   |
|---|-----------------------|------------|---|---|
|  | <b>Navigation Bar</b> |            |  | Easily navigate around all of your Atlassian applications with a full-width navigation bar situated at the top of every page. Compatible with Jira, Confluence, Bitbucket, Bamboo and Fisheye/Crucible. |

## News

### 04 Feb 2020 **Compliance for Confluence 3.2 Released**

New Features are now available, with new reporting and scaling capabilities:

- View/export useful Classification statistics
- Enforce restrictions - ensure all restrictions set using Auto-Restrict are applied to pages
- Filter Classification search by user
- Optimize Classification History by removing duplicates

Check it out on the [Marketplace](#).

### 16 Feb 2020 **View Tracker for Trello Released**

Provide analytics to Trello, including Google Analytics support with this Power-up.

See more on the [Trello Powerup Directory](#).

### 17 Dec 2019 **Approvals for Confluence UI Refresh**

We've re-imagined the Approvals for Confluence interface, to improve it's ease-of-use based on feedback.

### 23 Oct 2019 **We're Featured on the Atlassian Marketplace!**

Approvals for Confluence and Optimizer for Jira are both Staff Picks on the [Atlassian Marketplace](#).

### 09 Oct 2019 **Pulse for Jira Pro Released**

Pulse for Jira Pro, the fully-features analytics solution for Jira Cloud is [now available](#).

Try it today for free and keep posted for the release of the Free version coming out soon, which will have a lower limited retention period.

### 08 Oct 2019 **Optimizer for Jira 4 Released for Jira Data Center**

After extensive testing on Data Center, we're happy to announce the general availability of [Optimizer 4](#) for Jira Data Center.

### 02 Oct 2019 **Optimizer for Jira 4 Released for Jira Server**

We've been working hard behind the scenes to make Optimizer bigger and better than ever before.

It's been months in the making, listening to your feedback, implementing your ideas and of course letting the new App loose on our Beta testers in the final few weeks but we made it!

Check out the latest features over on the [Launch Site](#), or see the [Documentation!](#)

### 10 Sep 2019 **Compliance for Confluence 3 Released**

Find out what new features we've implemented on the following page: [What's New in v3](#).

We've fulfilled a number of highly requested features, including sensitive data detection and a new interface.

This version provides a vastly improved experience for users and administrators alike.

28 Aug 2019 **Optimizer for Jira 4 Sneak Peak + Beta Programme**
